What Learners Do

What action do learners take? What do they produce? Be specific and practical

-Watch a 10-minute video.
-Identify three business impacts of climate change.
-Write a short personal reflection (100–150 words).

Instructions

What exactly do learners need to do? Use plain language; step by step

1. Watch the short video.
2. Note three ways climate change may affect organisations.
3. Reflect on whether any of these issues are already visible in your workplace or sector.
4. Record your thoughts in a learning journal.

Support & Guidance

What support will help learners succeed?
Are examples or tips needed?

-Focus on practical business impacts rather than scientific detail.
-Example reflection provided.
